

The key information you need for your stay in Romania

Here is a brief guide on your fundamental rights and other helpful information while you stay in Romania.

Fundamental rights you should know about:

You have the right to seek asylum

Asylum applications are submitted in person by foreigners located in Romania or at a checkpoint for crossing the state border. For minors under 14, applications can be submitted only by an adult, their legal representative. The authorities may not refuse the asylum application because it was submitted late.

If you are an **unaccompanied minor who seeks asylum**, local social services will assign you an adult as a legal representative to assist you during the entire procedure. You have the right to be safe: If you feel in danger or need help, call **112** or **119** immediately (a unique line dedicated to children)!
